

Artificial Intelligence (AI) is changing the way we learn, communicate, and find information. Many people have heard of ChatGPT, but they often wonder what it is, how it works, and whether it's something they can actually use.

AI Made Simple: ChatGPT for Everyday Life is an engaging, interactive presentation designed specifically for adults who want a practical, non-technical introduction to today's most talked-about technology

David Telisman is the founder of David Telisman Communications, where he helps organizations turn expertise into visibility, credibility, and measurable business growth. With more than 28 years of experience in content marketing and communications, David works with clients across an array of industries, including professional services, technology, finance, and more, building thought leadership platforms that drive results.
